4.0 GENERAL REQUIREMENTS

Christian Horizon's group homes have specific requirements of contractors working at our homes and interacting with our staff and residents. While our expectations include those normally found at a typical construction project, like the legislative requirements of the Occupational Health and Safety Act, of equal importance, is the need to be considerate of our residents. Therefore, we request, that at all times, your supervisor and members of your crew communicate to the home's Program Manager activities and scheduling of work. We also request that that your team be extremely sensitive to the inquisitive nature of our residents, who may have opportunity to be in your work area. While we need your team to conduct their work, we ask that they keep all tools and equipment out of the residents reach. Please insist that all management and staff teams help you to maintain a safe working area for all.

Contractors Responsibilities

- 4.1 Project Start Up:** The Contractor will provide all signed or certified copies of documents including bonding certificates, contractual agreements, liability insurance, Workers Safety Insurance Board (WSIB) clearance certificates, cost breakdown and other required contract documentation before the start of any work. Confirm any outstanding items before commencement of the work. Discuss in detail the Project Site Safety Plan including means of egress and exiting for residents while construction activities take place on the site, management of tools and equipment, disposal of demolition and construction materials, etc.
- 4.2 Communication:** The General Contractor and Christian Horizons will exchange contact information for all members of the site project. Roles regarding communication and process will be exchanged as part of the communication process. Contact information will be made available as part of the meeting minutes at the end of each set of minutes. Communication information will include email address, telephone numbers, cell phone numbers, proper company address for all trades, sub trades, project managers and consultants involved in the project.
- 4.3 Meetings:** As a part of the exercise to establish and maintain a cooperative, effective and safe working environment, a project start up meeting and project site meetings on a regular basis as the project evolves if required. The purpose of project site meetings is to ensure that the project team and stakeholders have a clear understanding of the General Contractors contractual responsibilities which include direction about the project plan and protocols, the project lines of communication and project roles and responsibilities.
- 4.4 Meeting Minutes:** The General Contractor will take all meeting minutes and distribute them to the various members of the site project team for review and approval. Christian Horizons will manage distribution to their staff internally.
- 4.5 Health and Safety:** Ensure staff work safely on the site, and that all legislative requirements according to the most recent version of the Occupational Health and Safety Act are met. The General Contractor will be in good standing with the WSIB throughout the duration of this project. A First Aid Kit will be provided on site for workers safety and immediate needs in the event of an incident. In addition, all information regarding safety will be posted in an agreed upon work location for reference.
- 4.6 Site Supervision:** The General Contractor is responsible to provide daily competent site supervision at the project work site, at all times, to direct the activities and events at the work place. Contact information of site supervisors will be made available to the Christian Horizons Facilities Project Manager as outlined above.
- 4.7 Permits:** Ensure that all permits have been taken out and are posted at the work site according to the Ontario Building Code before commencement of any work. Copies of the permits are to be provided to Christian

4.0 GENERAL REQUIREMENTS

Horizons Facilities Project Manager at the start of the project. Where inspections of the work take place, the site supervisor will make record of the inspections and provide copies to the Christian Horizons Facilities Project Manager.

- 4.8 Site Layout Plan:** Verify the logistics at the site including access to the site, location of equipment, bins, construction materials, storage of tool chests, tool cribs, etc. with the Christian Horizons Facilities Project Manager.
Obtain permission for parking and use of utilities, washroom facilities and restricted areas of the site with the Christian Horizons Facilities Project Manager and/or the sites Program Manager.
- 4.9 Drawings & Specifications:** Maintain drawings and specifications on site during the term of the construction project including any notices of change, change orders to the project, minutes from the site meetings. Verify that the most recent drawings and specifications have been provided and the drawings contain all professional stamps as required.
- 4.10 Project Schedule:** The contractor will provide a project schedule for the work undertaken and update the project schedule at the end of each site meeting or where there are changes in scope of work. Key project dates should include start time, substantial completion, final completion and project plan to achieve schedule deliverables.
- 4.11 Change Management:** The General Contractor will submit a contemplated change notice to the Christian Horizons Project Manager where changes in the scope of work are considered. The contemplated change notice will include details on the work that is to occur, sketches if needed and cost to carry out the changes in the work. Each contemplated change notice will be numbered, dated and signed by the General Contractor. No work will begin on the contemplated change notice until a change order approval is issued by Christian Horizons.
- 4.12 Invoicing and Progressive Payments:** The General Contractor will issue invoices according to the terms of the contract agreement. Invoices must be detailed to include unit pricing when a cost breakdown has not been provided.
Invoices should be forwarded to the attention of the Christian Horizons Facilities Project Manager at:
Christian Horizons Resource & Leadership Centre
4278 King St., East
Kitchener, ON N2P 2G5
- 4.13 Testing and Inspections:** According to the terms of the project contractual agreement, the General Contractor will advise the Christian Horizons Facilities Project Manager and the group homes Program Manager of any testing or inspections that will be taking place on the site, giving a minimum, of 24 hours notice, in advance. Copies of the results of those tests will be copied to the Christian Horizons Facilities Project Manager.
- 4.14 Project Deficiencies:** At substantial completion, the General Contractor will conduct a tour of the project work with members of the project team which may include Consultants and Christian Horizons Facilities Project Manager. The results of that tour will be documented by the General Contractor. As part of the documentation of deficiencies, a timeline is to be provided as to resolution of any deficiencies identified.
- 4.15 Commissioning:** The General Contractor will arrange for demonstrations of all new or changed equipment installed as a part of the project. Manuals and cut sheets will be provided to the Christian Horizons Facilities Project Manager in a binder format as part of the commissioning process. Updated drawings, indicating any changes to the project, will be provided by the General Contractor at the completion of the project.

CHRISTIAN HORIZONS TENDER REQUEST

PROJECT NUMBER: 18145

PROJECT DESCRIPTION: Municipal Water Hookup

PROGRAM NAME: Durham 1

PROJECT LOCATION: 837 Somerville Street Oshawa ON

SCOPE OF WORK
